

**HAPPY BIRTHDAY TO A
STELLAR PROFESSOR
--JEFFREY ROSENTHAL**

Oct 13, 2020

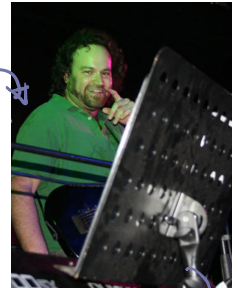

What Jeff is in our minds :

A Handsome guy

An Athlete

A Musician

An Awesome Professor!

A Comedian

Happy Birthday!

To our Best Professor

Shan Shan

One of the best decisions that I have made this year is enrolling into STA447. I can't be more thankful to all the amazing learning experiences you have brought to me. Not only the truth that you are a knowledgeable professor with really good teaching style, but also your kind, caring and positive personality have inspired me deeply. Before this summer, I couldn't even imagine doing research with such a great prof. I wanna thank myself for sending you the 1st email, and more importantly, thank you for giving me the chance to explore myself with other possibilities. You deserve all the marvelous things happen to you! Happy birthday, our best Jeff.

I have to admit:

I thought I met "Professor" Hagrid at Hogwarts in the very first class of STA447! Hope you can be a Happy Guy like Hagrid Forever! (watch Harry Potter 6)

I must say I feel so fortunate to have you as the supervisor of the first "serious" research project in my life. I used to know almost nothing about research. But now I become a person who can enjoy research. Thank you so much for your patience and guidance! Enjoy your day!

Thank you so much for being an awesome professor! Your passion and dedication for teaching and research have been motivating to all of us here. Wish you have a spectacular rest of 2020 and also 2021. Happy Birthday Professor Resenthal!!!

Before I became your research student, I thought being funny was just your teaching style. But now, I can see that you are just a genuine person and a funny guy who does not match your actual age. I'm so glad I or ' your class and got to work with you. I learned a lot. Hope you have a wonderful birthday!! (Btw, I agree that you do have a great resemblance to Hagrid LOL!) Best Trevor

It's a nice little town
Time goes around, round and round
Life is short, a day is long
Yesterday is history, tomorrow is a mystery
Love wisdom shall have no bound
We wish you good luck, for all days to come.
